

SNAP-ON SMILE

WHAT IS SNAP-ON SMILE?

Snap-On Smile is a patented, easy and painless way to obtain a beautiful smile. It was invented by a dentist who realized that not everyone can afford thousands of dollars to get a Hollywood smile make-over. After years of extensive research and development, Dr. Mia can now provide you with a Snap-On Smile that is thin and strong with the look of natural teeth. You can eat and drink with your Snap-On Smile. It's easy to care for and can be a temporary or long-term provisional cosmetic solution. It's available for upper and lower teeth.

Snap-On Smile's unique, proprietary formula of hi-tech dental resin make it very thin yet extremely strong. It fits right over your own teeth to give you a beautiful, natural looking smile—even if you have stains, chips, gaps or missing teeth.

And for many people, Snap-On Smile can be life changing. It gives back the confidence to smile. Thousands of people worldwide have already experienced the unique benefits of Snap-On Smile.

SNAP-ON SMILE IS FOR JUST ABOUT EVERYONE!
